New varieties noted

By JAMES A. SMITH
Extension Agent

There are two new flue tobacco varieties available for '82 planting--K 399 and Va 182. K 399 was tested under the name McNair 3199 and was approved for release in 1980, but the seed supply was limited.

At four locations in 1981 the K 399 averaged 3185 pounds worth $5383 per acre. The Va 182 yielded 3040 pounds worth $5369 per acre.

Va 182 is a cross of Coker 319 and NC 95 while K 399 was developed from a cross of (Coker 319 X Coker 319) X NC 95. Both varieties are highly resistant to blackshank, susceptible to tobacco mosaic virus, low resistance to black root rot. Va. 182 is susceptible to root knot nematodes and carries moderate resistance to granville wilt. K 399 is resistant to root knot nematodes and carries a high resistance to granville wilt.

At the four Virginia locations in 1981 Clemson PD 4 released in 1980 was the high dollar value tobacco at $6042 per acre.

Try some of the new varieties, but do it slowly--never plant a major portion of your tobacco crop to a new variety. There are just too many variables.

The crowd was fairly small last week for re-certification of private applicators. If you wish to be re-certified, your final chance will be Tuesday evening, December 1, 7:30 p.m. at District Extension Office auditorium (across street from the Courthouse).

It will take about an hour and quarter to complete the process.

Grapes can be prunned as soon as they completely defoliate. It's a good job to put behind.

* * *

All these leaves being burned is such a waste. They can be used to plow back into the soil to add humus. Gardens have a way of getting hard and tight because we neglect to add organic mater or plant a cover crop.

* * *

Brown rot hit a lot of fruit trees this year. We can still see mumified fruit on many trees. It needs to be picked and burned.

* * *

Cut off asparagus tops as soon as they turn yellow from frost. Then burn. This gets rid of troublesome disease and berries.

* * *

Mice and rats can become a problem in the fall. When purchasing a bait, check to see if it is infested with weevils. This is a major problem. Weevils from rodent baits can infest other grain products in the home or barn.

* * *

Can animal disease be transmitted by pets licking one's face?

Yes, cats, dogs, hamsters and birds can transmit animal diseases (zoonoses) to people. Diseases such as pasteurellosis, ascariosis, salmonellosis, leptospirosis, rabies and others can be transmitted.

Teach children how to protect themselves.

* * *

Some soybean producers tell of extremely high harvest losses this year. There are so many beans can escape the bin-plants may be small, pods close to ground, pre-harvest shattering of beans, cutter bar height, improper adjustment of the reel and cylinder speed.

At $6.00+per bushel, it's worth checking field losses regularly.

* * *

A communication from Small Business Administration indicates that they intend to collect full installments this year on any outstanding loans.

I see that alfalfa seed sprouts are available in local grocery stores. A recent report says that 20% of alfalfa seed production is used in gourmet salads. This would be 23 million pounds; enough to plant one million acres.

Can that report be correct?

Cook that turkey!

How to Cook Thanksgiving Turkey

Thanksgiving is a special time and turkey on our table is synonymous with the Thanksgiving holiday.

It is very important that you handle poultry carefully. Whether you are baking a chicken or a turkey, you should keep the poultry frozen until ready to thaw and cook.

Any poultry product should be left in its water-tight plastic bag or wrapper until ready to thaw and prepare. Thaw poultry just until the neck and giblets can be removed from the inside or the legs move easily. Let a chicken or turkey thaw in one of these places:

1. In a refrigerator - Leave chicken or turkey in original plastic wrapper. Put on a tray or flat pan in the refrigerator. A small chicken takes about 12 hours to thaw; a large one about 1-½ days. A turkey less than 18 pounds taken 1 to 2 days to thaw; and one over 18 pounds taken 2 to 3 days to thaw.

2. In cold water - Put poultry in water-tight plastic bag in a large pan of water. Change the water often for quicker thawing. A chicken may take only one hour. A large turkey will take 6 to 8 hours.

3. In a double paper bag in a cool place - Leave chicken or turkey in original plastic wrapper. Put in a double paper bag and close tightly. Set on a tray or pan to catch drippings. Thawing takes about one hour per pound of chicken or turkey.

To roast a chicken or turkey, wash poultry and drain well. Sprinkle the inside cavity of the poultry with salt and pepper. Fold the neck skin over and fasten to back. Put the chicken or turkey breast side up in a large baking pan so as to catch drippings. Rub the skin with fat or oil. Roast until legs can be moved up and down easily and the thigh meat feels soft. Chicken and turkey should be cooked 25 to 30 minutes per pound. To keep poultry from over-browning, cover brown places with a thin, clean cloth moistened with fat or cover loosely with aluminum foil. You will find wings and legs are the parts of the poultry that are easier to brown than others.

Words of Caution: Do not stuff a turkey or hen with your favorite stuffing ahead of baking. If you insist on baking the stuffing in the poultry, be sure that this is done just as the poultry is going into the oven.

It is recommended that stuffing be baked separately in a casserole for the last hour of roasting. Baste the stuffing with a few spoonfuls of drippings from the turkey. Any light on the liquid added if you prefer a dry kind of crunch dressing which is especially good as a base for delicious gravy.

After your Thanksgiving meal, be sure to store the turkey or chicken and stuffing separately. Do not store together. Please follow these safety precautions when handling your turkey, chicken and stuffing for the Thanksgiving holiday season.

On behalf of the Appomattox County Extension Staff, I wish to extend to you our best wishes for a joyous Thanksgiving season. As we stop, pause and count our blessings, may it be one of the nicest seasons of the year.

If you have a homemaking question or problem, you may call 352-8244 or write us at P. O. Box 488, Appomattox, Va. 24522. It is always so nice the hear from you and to help you.

Have a good Thanksgiving!

DAR event noted

Mrs. Charles F. P. Crawley of Appomattox was the guest speaker for the November meeting of the Red Hill Chapter, Daughters of the American Revolution which was held at the home of Mrs. H. Webster Babcock in Appomattox on November 12. Hostesses assisting Mrs. Babcock were Mrs. Ernest Bowling, Mrs. Douglas Crowther, Mrs. W. R. Herndon, Jr., Mrs. Thomas Morris, Miss Janet Moses and Mrs. Ernest Tolbert.

Mrs. Vincent Lusardi, Chapter regent, presided at the meeting and welcomed Appomattox members of the Blue Ridge Chapter DAR and other guests. Mrs. Ashby Scott, chaplain, gave the devotion and the NSDAR National Hymn, "O God, Our Help In Ages Past" was sung by Mrs. Scott, Mrs. Bowling, Mrs. Morris and Mrs. Tolbert. The American Flag was read by Mrs. Ronnie Cox, and the Vice Regent, Mrs. Jack Poindexter, gave the National Defense Report.

Mrs. Crawley, a former elementary school librarian, has done extensive research on Virginia and Appomattox County history. She is the author of a historical short story, "Jimmy and the James River" and has recently designed and published a coloring book for children about the Appomattox Court House and The Civil War.

The story of Virginia's first 17 years was written along the banks of the James River and much of it in the towns, forts and plantations that grew here. Mrs. Crawley's talk, "A Hundred In Our State", centered on the cultural and governmental development of "the hundreds in Virginia". The word was from a subdivision of a county in England and Ireland which was called a hundred. Bermuda Hundred and Flowerdieu Hundred were among the numerous governmental settlements reflecting life of the early settlers in Virginia. Mrs. Crawley stated that the Indian Massacre of 1662 destroyed these settlements and government again centered at Jamerstown as the survivors came in from other communities.
